**WANT TO KEEP YOUR CHILD EXTRA SAFE?** Create a code word for you and your child to be used in a variety of ways. It can be a signal that your child needs to talk to you immediately; it can be the password a trusted adult needs to pick up your child in an emergency, or it can be a code to signal to you that the child is in danger. Practice handling these situations just as you would have family fire drills. Safety is too important to leave to chance. For more info about your child's safety you may contact the Office of Safe Environment at (508)675-1311.
